## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 116-119 are rejected under 35 U.S.C. 102(b) as being anticipated by Keiser, II et al. (US Patent No. 5,214,696).

Regarding claim 116, Keiser discloses a method, comprising network limiting pages of books that can be viewed over a publically available network [..the limited book reader program offer by publisher; see col. 2, lines 51-67]; requesting information indicative of at least a page of a book over the network [..publisher is distributing to the end user using corresponding limited book reader program; see col. 9, lines 24-40]; and returning images of pages of the book based on said limiting and said requesting [..execution of the book validation program, storing image and copy of limited book; see col. 13, lines 5-57].

Regarding claim 117, Keiser discloses wherein said returning comprises increasing a quality of a displayed image (see col. 24, lines 25-67).

Regarding claim 118, Keiser discloses wherein said increasing provides an image having sufficient image quality to allow reading textual information from the images of the pages (see col. 13, lines 5-34).

Regarding claim 119, Keiser discloses wherein said limiting comprises enabling only a specific number of pages to be viewed (see col. 4, lines 25-67).

***Allowable Subject Matter***

Claims 85-90, 96-107 and 121-124 are allowed over the prior art.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. (PTO-892).
